Description of Presentation

Title of Presentation: Acute Coronary Syndromes
Description of Presentation: Coronary artery disease is still the leading cause of death in the United States. Using case presentations we will follow interesting cases from the field through their treatment at the receiving facility. Emphasis will be on twelve leads, signs and symptoms, and developing a treatment plan that ties into the hospital management to decrease myocardial damage.

Objectives:

- 1) The participant will be able to identify infarct patterns on a 12 lead.
- 2) The participant will be able to develop a treatment plan for a patient in the setting of an MI.
- 3) The participant will understand the significance of rapid and appropriate interventions to improve patient outcomes.

Target audience: ALS / BLS

Time requirement: 1 to 2 hours

Presented at Prior Conference : Yes – several times

Teaching Method: Lecture / Discussion
