### **Description of Presentation**

Title of Presentation: Fire and Ice: A Look at Temperature Related Emergencies

Description of Presentation: Heat and Cold emergencies are not the most typical calls we respond to, however they can both cause devastating outcomes. Using case presentations we will discuss the more critical aspects of these calls. We will go over assessment findings and treatment plans to allow for your patient to have the best chance of recovery with no deficits

Objectives:

- 1) The participant will be able to identify associated signs / symptoms for specific environmental emergencies.
- 2) The participant will be able to understand the pathophysiology of heat and cold emergencies.
- 3) The participant will be able to develop an appropriate treatment plan for patient with environmental emergencies

Target audience: BLS

Time requirement: 1 hour

Presented at Prior Conference : Yes

Teaching Method: Lecture / Case presentation / Discussion
