Description of Presentation

Title of Presentation: What About The Children: Effects of Methamphetamine on Children
Description of Presentation: By now we have all heard the “Horror Stories “ from the use of methamphetamines. However the story is still not finished. This presentation is designed to cover the problems associated with meth use on the developing fetus, newborns and children. New information is available to see how children have been effected. We will use cases to help identify issue involved with children who have been exposed to meth.

Objectives: 1) The participant will be able to understand the effects meth has on the body.
2) The participant will be able to recognize signs and symptoms of a child exposed to meth.
3) The participant will be able to treat the child who has been exposed to meth

Target audience: BLS / ALS

Time requirement: 1 hour

Teaching Method: Lecture
