### **Description of Presentation**

Title of Presentation: Methamphetamines: The Real Story  
Description of Presentation: This drug has become one of the fastest growing illicit drugs on the market today. When a person uses meth it has profound effects on the body and the mind. We will take a closer look at the stages a person will go through while using. We will discuss the physiologic effects, how it's manufactured and develops a treatment plan for your patient.

Objectives: 1) The participant will be able to understand the effects meth has on the body.  
2) The participant will be able to recognize signs and symptoms of the person using.  
3) The participant will be able to develop a treatment plan for your patient.

Target audience: ALS / BLS

Time requirement: 1 to 2 hours

Presented at Prior Conference : Yes - several

Teaching Method: Lecture
