Description of Presentation

Title of Presentation: RSI: An Excellent Tool In Airway Management

Description of Presentation: Airway management is still the most important aspect of patient care. Often it presents a challenge to manage, however there are advanced procedures which may facilitate our efforts. Rapid sequence intubation is becoming one of the best tools available to allow for successful airway management. With the use of a case presentation we will look at the need, follow the steps, understand the medications used, and have a backup plan in the event there are unforeseen complications.

Objectives:

- 1) The participant will be able to identify the need for advanced airway management
- 2) The participant will be able to identify steps in RSI
- 3) The participant will have an understanding of how medications work during RSI

Target audience: ALS

Time requirement: 1 to 2 hours

Presented at Prior Conference : Yes

Teaching Method: Lecture
