### Description of Presentation

Title of Presentation: What is That Rhythm? Torsades or V-Fib?  
Description of Presentation: Is the patient in torsades or V-fib? Is that a mobitz II or Complete heart block? What does it matter if the patient has ST segment depression or elevation? We will look at the “Footprints” that differentiate each rhythm, the causes of each, discuss potential signs and symptoms that may accompany each, and develop a treatment plan for your patient.

Objectives:

- 1) The participant will be able to differentiate between rhythms that may look similar.
- 2) The participant will be able to list signs and symptoms associated with Hemodynamic compromise.
- 3) The participant will be able to develop a treatment plan for rhythms that cause patient compromise.

Target audience: ALS / BLS

Time requirement: 1 hour

Presented at Prior Conference : Yes

Teaching Method: Lecture
