### **Description of Presentation**

Title of Presentation: What's in the Medicine Cabinet?  
Description of Presentation: Using case presentations we will look at prescription medications that patients are commonly taking. We will discuss classifications of medications and actions they have on the body, including potential dangers from accidental or intentional overdoses.

Objectives: 1) The participant will be able to identify prescription meds by classification.  
2) The participant will have an understanding of how medications work.  
3) The participant will be able to identify problems from overdoses of prescription meds.

Target audience: BLS / ALS

Time requirement: 2 hours

Presented at Prior Conference : Yes

Teaching Method: Lecture
